UNIFORM TITLES

GLOSSARY
Attention!

- This presentation was prepared before the RDA Toolkit was launched on June 23, 2010
- Sources:
  - Final draft of RDA released in Nov. 2008
  - JSC, Minutes of March 2009 meeting
  - JSC documents
  - E-mail correspondence with LAC and Adam L. Schiff
- The emphasis of the presentation is on changes that affect music specifically.
STRUCTURE OF RDA
Structure of RDA

DESCRIPTION
Sources of information

- Instructions were generalized for 3 categories of resources:
  - Resources consisting of leaves, sheets, or cards (or images of leaves, sheets, or cards)
    - Source: title page, title sheet, or title card (or image thereof)
    - No exception for “list” title pages in the case of notated music
  - Resources consisting of moving images
  - Other resources (including discs)
    - Source: a label bearing a title that is permanently printed on or affixed to the resource or embedded metadata in textual form that contains a title
    - No option to choose another source if it furnishes a collective title and the label or the metadata do not
GMD

- Replaced by 3 elements:
  - **Content type (MARC tag 336)**
    Categorization reflecting the fundamental form of communication in which the content is expressed and the human sense through which it is intended to be perceived
  - **Media type (MARC tag 337)**
    Categorization reflecting the general type of intermediation device required to view, play, run, etc., the content of a resource
  - **Carrier type (MARC tag 338)**
    Categorization reflecting the format of the storage medium and housing of a carrier in combination with the type of intermediation device required to view, play, run, etc., the content of a resource
### Examples

Edition statement

- Encompasses elements relating to the format of music which were scattered over various areas in AACR2
  - Musical presentation statements
    - E.g.: Score and parts
  - Statements of responsibility relating to the format of music
    - E.g.: vocal score by Michael Tillett
- Voice range statements are explicitly mentioned
  - Previously only mentioned in LCRIs
    - E.g.: High voice

Physical description of notated music

- Definition of score modified
  - **Graphical, symbolic, or word-based** musical notation representing the sounds of all the parts of an ensemble or a work for solo performer or electronic media. Do not confuse with Part.

- Some terms are no longer used
  - v. of music, p. of music, leaves of music
    - Replaced with: Score
  - Close score
    - Replaced with: Condensed score?
  - Miniature score
    - Replaced with: Study score
Physical description of notated music 2

- Extent of the reproduction and of the original are combined when the format of the reproduction parallels a print, manuscript, or graphic counterpart (microforms and electronic resources)
  - E.g.: 3 microfiches (1 score (118 pages))

- New elements:
  - Base material (e.g.: parchment)
  - Layout of tactile musical notation (e.g.: bar by bar)
# MARC examples

</tbody>
</table>
Physical description of sound recordings

- Most terms for types of carriers used in the extent are modified
  - audio cartridge (instead of: sound cartridge)
  - audio disc (instead of: sound disc)
  - audio roll (instead of: [name of instrument] roll)
  - audiocassette (instead of: sound cassette)
  - audiotape reel (instead of: sound tape reel)
  - sound-track reel (instead of: sound track film reel [or cassette, etc.])

- New term
  - audio cylinder
Physical description of sound recordings 2

- Some details are given even if they are standard for the type of resource
  - Playing speed of digital discs and analog tape cassettes (i.e. 1.4 m/s and 4.75 cm)
  - Groove characteristic of analog discs (e.g.: microgroove)
  - Tape configuration (i.e. the number of tracks on an audiotape)
  - Dimensions of cartridges and cassettes (including the width of the tape)

- Playing speed of analog tapes is recorded in centimetres per second
  - RDA gives the option to use inches per second
Physical description of sound recordings 3

- Configuration of playback channels
  - terms mono and stereo are not treated as abbreviations (no periods)
  - new term: surround

- “Recording and reproduction characteristics” becomes “Special playback characteristics”
  - List of terms is expanded (e.g.: Dolby, NAB standard)

- Metric units are used for dimensions
  - RDA gives the option to use another system of measure

- No prescribed format for duration. E.g.:
  - 17 min.
  - 16:00
New elements:

- Base material (e.g.: paper, vinyl)
- Generation of audio recording (e.g.: master tape)
- File type (e.g.: audio file)
- Encoding format (e.g.: CD audio, DVD audio, MP3, SACD)
# MARC examples

## AACR2

**Compact disc:**

300 $a 1$ sound disc :
   $b$ digital ; $c 4$ 3/4 in.

**Hybrid SACD:**

[AACR2 doesn’t address SACDs specifically]

## RDA

### 300 $a 1$ audio disc :
   $b$ digital, 1.4 m/s, CD audio ; $c 12$ cm

### 300 $a 1$ audio disc :
   $b$ digital, 1.4 m/s, stereo, surround, SACD ; $c 12$ cm
MARC examples 2

**AACR2**

*LP record:*

300 $a 1 sound disc :  
   $b analog, 33 1/3 rpm ;  
   $c 12 in.

*Audiocassette:*

300 $a 1 sound cassette :  
   $b analog.

**RDA**

300 $a 1 *audio* disc :  
   $b analog, 33 1/3 rpm,  
   *microgroove* ;  
   $c 30 cm.

300 $a 1 *audiocassette*:  
   $b analog, 4.75 cm/s,  
   4 *track* ;  
   $c 10 × 7 cm,  
   4 *mm* tape.
Notes

- Notes on content become elements. E.g.:
  - Nature of the content
  - Place and date of capture
  - Language of the content
  - Form of musical notation
  - Format of notated music
  - Medium of performance of musical content
  - Duration
  - Performer, narrator, and/or presenter

- All elements relating to content are not recorded as notes
  - Element Format of notated music (part, score, vocal score, etc.) is recorded as a code in field 008/20
Note on medium of performance

- The limit of 11 instruments for chamber music in AACR2 has been lifted in RDA.
Place and date of capture

- Element is divided in two sub-elements:
  - Place of capture (518 $p)
  - Date of capture (518 $d)
- A specific format is prescribed for the date, i.e. "year, month, day, hour". E.g.:
  - 2002 September 13
MARC example

AACR2

RDA

Publishers’ numbers

- Recording only the first number and the last number when there are more than 3 numbers for individual parts is optional.
- When the alternative to record only the first number and the last number is applied to publishers’ numbers and plate numbers for notated music, letters preceding or following numbers are no longer omitted.
  - E.g.:
    - UE 19541-UE 19543
    - not
    - UE 19541-19543

CHOICE OF ACCESS POINTS
New terminology

RDA
- Authorized access point
- Compilation
- Variant access point

AACR2
- Heading
- Collection
- Reference
Adaptations

- 4 of the 5 categories of works are not new compared to AACR2
  - Arrangements described as freely transcribed, based on, etc., and other arrangements incorporating new material
    - Works merely based on other music are covered by this category and are not specifically mentioned
  - Paraphrases of various works or of the general style of another composer
  - Arrangements in which the harmony or musical style of the original has been changed
  - Any other distinct alteration of another musical work
Adaptations 2

- New category
  - Performances of musical works involving substantial creative responsibility for adaptation, improvisation, etc., on the part of the performer or performers
    - E.g.: Jazz performances of pop standards
  - Applies to individual works as well as to compilations
  - In these cases, the composer of the original work is no longer considered as the creator, but the performer is, as adapter
Librettos

- The option to treat librettos as musical works (i.e. to enter them under the heading for the composer) was deleted; only the authors can be considered as the creators.

- It will be possible to use the access points authorized by the alternative rule at 21.28B1 and by 25.35E1 as variant access points.
Librettos and cadenzas

- New instructions on variant access points
  - For librettos, using the access point for the musical work. E.g.:
    - Verdi, Giuseppe, 1813-1901. Ernani. Libretto. English
      Authorized access point for the work: Piave, Francesco Maria, 1810-1876. Ernani. English
  - For cadenzas, using the access point for the musical work for which the cadenza was written. E.g.:
    - Beethoven, Ludwig van, 1770-1827. Concertos, piano, orchestra, no. 3-4. Cadenzas (Schumann)
      Authorized access point for the work: Schumann, Clara, 1819-1896. Cadenzen zu Beethoven's Clavier-Concerten
New terminology

RDA
- Authorized access point representing a work
- Preferred title
- Conventional collective title
- Non-distinctive title
- Distinctive title
- No term for the title portion of an authorized access point for a work

AACR2
- Main entry, Name-title added entry or Uniform title
- Uniform title (minus additions)
- Collective uniform title
- No formal equivalent
- No formal equivalent
### Identifying elements for works and expressions: examples

**Work**
- Title of a musical work
- Form of work
- Date of work
- Place of origin of the work
- Other distinguishing characteristic of the work
- Medium of performance
- Numeric designation of a musical work
- Key

**Expression**
- Content type
- Date of expression
- Language of expression
- Other distinguishing characteristic of the expression of a musical work
Identifying elements for works and expressions 2

- Additional elements recorded to distinguish works and expressions may be recorded as elements, as additions to access points or as both
Identifying elements for works and expressions 3

- **Examples:**

  100 1# $a Beethoven, Ludwig van, $d 1770-1827. $t Sonatas, $m piano, $n no. 14, op. 27, no. 2, $r C# minor

  100 1# $a Beethoven, Ludwig van, $d 1770-1827. $t Sonatas 382 ## $a piano 383 ## $a no. 14, $b op. 27, no. 2 384 ## $a C# minor

  100 1# $a Beethoven, Ludwig van, $d 1770-1827. $t Sonatas, $m piano, $n no. 14, op. 27, no. 2, $r C# minor 382 ## $a piano 383 ## $a no. 14, $b op. 27, no. 2 384 ## $a C# minor
Identifying elements for works and expressions 4

- Examples:

```
100 1# $a Mahler, Gustav, $d 1860-1911. $t Symphonies, $n no. 2, $r C minor
382 ## $a soprano $a alto $a mixed voices $a orchestra
383 ## $a no. 2
384 ## $a C minor

046 ## $k 1971
100 1# $a Hovhaness, Alan, $d 1911-2000. $t Island of Mysterious Bells
382 ## $a harps (4)
383 ## $b op. 244
```
Fewer abbreviations

**AACR2**
acc.
arr.
unacc.

**RDA**
accompaniment
arranged
unaccompanied

*But:*
op.
n., no, no., Nr., etc.
BWV, D., K., RV, etc.

op.
n., no, no., Nr., etc.
BWV, D., K., RV, etc.
Modifications to the title

- When a preferred title consists solely of the name of one type of composition, RDA instructs to record the accepted form of name in the language preferred by the agency, if there is one
  - RDA doesn’t require that the form be the same or a cognate in English, French, German and Italian
- The exception for trio sonatas has been eliminated
  - The term “Trio sonata(s)” is no longer substituted to the original title given by the composer, which is now chosen as the preferred title (e.g.: Sonatas, Trios)
# MARC examples

## AACR2

| 100 $t Gesänge, $n op. 9. | 100 $t Pezzi, $m string quartet; $o arr. | 100 $t Mouvement, $m organ. | 100 $t Trio sonatas, $m oboe, violin, continuo, $r D major. |

## RDA

| 100 $t Songs, $n op. 9. | 100 $t Pieces, $m string quartet; $o arranged. | 100 $t Movement, $m organ. | 100 $t Sonatas, $m oboe, violin, continuo, $r D major. |
Medium of performance

- No longer limited to 3 elements
- Terms for groups of instruments or solo voices are used only for:
  - Standard combinations in chamber music (e.g.: piano, strings; string quartet)
  - Accompanying ensembles
  - Cases where specific instruments or voices are not indicated by the composer
- Terms “unaccompanied” and “[name of instrument] accompaniment” for songs, lieder, etc., are used with conventional collective titles only (error?)
### MARC examples

<table>
<thead>
<tr>
<th><strong>AACR2</strong></th>
<th><strong>RDA</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>100 $t$ Sextet, $m$ piano, winds, strings.</td>
<td>100 $t$ Sextet, $m$ <strong>piano, flute, clarinet, horn, violin, violoncello</strong>.</td>
</tr>
<tr>
<td>100 $t$ Quartets, $m$ mixed solo voices, piano, $n$ op. 31.</td>

</tr>
<tr>
<td>100 $t$ Concertos, $m$ woodwinds, harp, orchestra.</td>
<td>100 $t$ Concertos, $m$ <strong>flute, oboe, clarinet, bassoon</strong>, harp, orchestra.</td>
</tr>
</tbody>
</table>
Medium of performance 2

- Instructions on indeterminate medium have been developed
  - One family of instruments, collective term, etc.
    - E.g.: plucked instrument, chordal instrument
  - Range or general type of instrument or voice
    - E.g.: low instrument, male voice
  - Some instruments, etc., unspecified
    - E.g.: unspecified instrument
  - Number of parts or voices
    - E.g.: voices (3)
  - Medium unspecified
    - E.g.: unspecified
Numeric designation

- New instruction for works in a consecutively numbered series that have different forms of numeric designation, or different words introducing the number. E.g.:
  - “First set of songs” and “Second book of songs”
- RDA allows recording any numeric designation as an element, even for distinctive titles, although priority is given to thematic index numbers in authorized access points
Key

- Distinction between pre-twentieth century and post-nineteenth century works was removed
- Recorded if:
  - it is commonly identified in reference sources
  - it appears in the composer’s original title or the title proper of the first manifestation
  - it is apparent from the resource described (unless it is known to be transposed in the resource)
Access points for expressions

- RDA provides for formulating unique access points in order to distinguish various expressions of a work.

E.g.:

Nacht in Venedig (Korngold and Marischka).
  $h$ Notated music

Nacht in Venedig (Korngold and Marischka).
  $h$ Performed music. $f$ 1954
  *version conducted by Otto Ackermann*

Nacht in Venedig (Korngold and Marischka).
  $h$ Performed music. $f$ 1967
  *version conducted by Franz Allers*

Nacht in Venedig (Märzendorfer). $h$ Notated music
Compilations by a single composer

- Categories remain the same, i.e.
  - Complete works
  - Works of various types for one broad medium
  - Works of various types for one specific medium
  - Works of one type for one specific medium or various media

- Conventional collective titles may be used if the compilation consists of 2 or more works (rather than 3 or more)

- For incomplete compilations
  - Access point for each of the works
  - Alternative: conventional collective title followed by “Selections” instead of (or in addition to) access points for the works
  - “Selections” replaced with “Works. Selections”
MARC examples

**AACR2**

100 1# $a Schubert, Franz, $d 1797-1828.

700 12 $a Schubert, Franz, $d 1797-1828. $t Symphonies, $n D. 485, $r B♭ major.
Compilations by various composers

- RDA doesn’t include instructions equivalent to AACR2 21.23C1 and 21.23D1 a) which allow compilations to be entered under a principal performer, even if his/her responsibility doesn’t go beyond that of mere performance, execution, etc.

- Performers can be part of the authorized access point for a compilation only if they are the creators, i.e.
  - if the compilation results from the collective activity of a performing group as a whole where the responsibility of the group goes beyond that of mere performance, execution, etc.
  - if the performer is the adapter of the work
MARC examples

AACR2
110 2# $a Quintet Cuesta.
245 10 $a Wind quintets
   $h [sound recording] / 
   $c Arnold Schoenberg, 
   Robert Gerhard.

RDA
245 00 $a Wind quintets / 
   $c Arnold Schoenberg, 
   Robert Gerhard.
710 2# $a Quintet Cuesta.

**Songs by various composers sung by K.D. Lang.**
Glossary: modified definitions

- **Chorus score**
  - A score of a work *for solo voices and chorus* showing only the parts for chorus, *at least in those portions of the work in which the chorus sings*, with the *instrumental* accompaniment either arranged for one or two keyboard instruments or omitted.

- **Score**
  - *Graphical, symbolic, or word-based* musical notation representing the sounds of all the parts of an ensemble or a work for solo performer or electronic media. Do not confuse with Part.
Vocal score

A score showing all vocal parts, with accompaniment arranged for one or two keyboard instruments. [no mention that the accompaniment might be omitted]
Glossary: new definitions

- Format of notated music
  - The musical or physical layout of the content of a resource that is presented in the form of musical notation.

- Distinctive title
  - In the context of musical works, a title that is not just a form or musical genre, tempo indication, a number of performers, or a type of liturgical text.
Glossary: new definitions 2

- Type of composition
  - A form, a genre, or a generic term used frequently by different composers (e.g., capriccio, concerto, intermezzo, Magnificat, mass, movement, muziek, nocturne, requiem, Stück, symphony, suite, Te Deum, trio sonata). [excerpted from AACR2 rule 25.27A, footnote 10]

QUESTIONS?
Remarks:

- Library of Congress rule interpretations and practices were followed when creating the AACR2 records.
- The RDA records were created based on the assumption that, when RDA would be first implemented:
  - the implementation scenario would be either scenario 2 or 3, i.e. with multiple Group 1 entities (work, expression, manifestation and item) being described in a single record;
  - ISBD would be used as the display format;
  - MARC 21 would be used as the encoding format.
- The Full draft of RDA, made available in November 2008, was used to create the RDA records.
- Only elements that would be stored in bibliographic records in a scenario 2 or 3 implementation of RDA have been included in the RDA records. For demonstration purposes, all relevant elements have been included whenever MARC 21 provided a way to encode them, either as character strings or as codes. Not all elements are core elements in RDA, though. One must therefore keep in mind that the national libraries might decide, when implementing RDA, to not always include those elements that are not core in their records.
W. A. MOZART

Sinfonie in G
»Nr. 27«

Symphony in G major
»No. 27«

KV 199 (161b)

Herausgegeben von / Edited by
Hermann Beck

Urtext der Neuen Mozart-Ausgabe
Urtext of the New Mozart Edition

Partituir / Score

Bärenreiter Kassel · Basel · London · New York · Prag
BA 4745
ZUR EDITION

Berichtigungen und Ergänzungen des Herausgebers sind im Notentext typographisch gekennzeichnet, und zwar: Buchstaben (Worte, dyn. Zeichern, it-Zeichern) durch Kleinbuchstaben, Bogen durch Strichelung, Vorschlags- und Ziernoten, Schlüssel sowie Akkidenzen vor Vorschlags- und Ziernoten durch eckige Klammern. Ziffern zur Zusammensetzung von Triolen, Sextolen etc. sind stets kursiv gestochen, die ergänzten in kleinerer Größe. In der Vorlage irtlich oder aus Schreibbesonderschaft, ausgelassenen Cantus ist die Vorläufige Ausgabe verwendet: alle diese Fällen grundsätzlich die moderne Umschrift $\frac{3}{4}, \frac{3}{8}, \text{etc.}$; soll ein derart wiedergegebener Vorschlag als „kurz“ gelten, wird dies durch den Zusatz „$\frac{3}{4}$“ über dem betreffenden Vorschlag angedeutet. Fehlende Bogen von Vorschlagsnote bzw. –notengruppen zur Hauptnote sowie nach Schlagnoten, ebenso Artikulationszeichen bei Ziernoten werden grundsätzlich ohne Kennzeichnung ergänzt.

EDITORIAL NOTE

Editorial corrections and additions are identified typographically in the musical text as follows: letters (words, dynamics, italics, slurs) and digits by italics; main notes, accidentals before main notes, dashes, dots, fermatas, ornaments and rests of lesser duration (half note, quarter-note etc.) by small print, slurs by broken lines, appoggiaturas and grace-notes by square brackets. All digits used to indicate triplets and sextuplets appear in italics, with those added by the editor set in a smaller type. Whole-note rests lacking in the source have been added without comment. Mozart always notated isolated sixteenth, thirty-seconds and so forth with a stroke through the stem, i.e. $\frac{3}{4}$ instead of $\frac{3}{4}$. In the case of appoggiaturas, it is thus impossible to determine whether they should be executed short or long. In such cases, this present edition prefers in principle to use the modern equivalent $\frac{3}{4}, \text{etc.}$: Where an appoggiatura is represented in this manner it is meant to be short. "$\frac{3}{4}$" has been added above the note concerned. Slurs missing between the note (or group of notes) of the appoggiatura and the main note have been added without special indication, as have articulation marks on grace notes.

ORCHESTRA

Flauto I, II, Coro I, II, Archi

Aufführungsdauer / Duration: ca. 20 min.

Zu vorliegender Ausgabe sind eine Studienpartitur (TP 73) sowie das Aufführungsmaterial (BA 4745) erhältlich.

A study score (TP 73) is available for this work as well as the complete performance material (BA 4745).

## COMMENTS

| 040 | In order to identify records created following RDA, a new code for use in 040 $e has been defined for RDA as the source of the description convention. Value “i” in Leader/18 (Descriptive cataloging form) indicates that ISBD punctuation is in the record at subfield boundaries. |
| 100 and 700 | RDA provides a list of relationship designators in Appendix I for relationships between a resource and persons, corporate bodies, etc., that is much more comprehensive than the designations of functions available in AACR2. These designators could be encoded using MARC relator codes in subfield $4 as substitutes for the RDA terms. |
| 240 | RDA allows adding elements like Other distinguishing characteristics of the expression (Beck), and Content type (Notated music) to make the authorized access point representing the expression unique. However, RDA prescribes no specific order for the added elements. In this exercise, I followed the order that made the most sense. |
| 245 | Punctuation is transcribed as it appears. Punctuation can be added for clarification, though. The GMD is no longer used, being replaced with Content type, Medium type and Carrier type in fields 336, 337 and 338. |
| 250 | What was considered a musical presentation statement in AACR2 is considered an edition statement in RDA. |
| 260 | Limitations on the number of places of publication that are transcribed have been lifted. Only the first is required, though. When the date of publication is not identified in the resource, a date or approximate date of publication must be supplied. The phrase “[date of publication not identified]” is recorded when the resource doesn’t bear a date of publication and when a probable date cannot be supplied. The copyright date is required if neither a date of publication nor a date of distribution can be identified. The copyright symbol (or the word copyright if the symbol cannot be reproduced) is used instead of the letter c. Since RDA is not a display standard, it doesn’t include a provision to add the word printing after the printing date. |
| 336, 337 and 338 | Content type (336), Media type (337) and Carrier type (338) replace the GMD. |
| 546 | Form of musical notation is a specific element in RDA. |

Johann Strauss II’s Eine Nacht in Venedig, heard on this recording in a version prepared by Ernst Marishcka and Erich Korngold for a 1923 Berlin revival, is modelled, like so many of his stage works, on Offenbach’s French operettas. When this recording appeared in 1955, The Gramophone critic wrote. . . .

First issued on Columbia 33CX 1224 and 1225

On p. 5 of booklet:

“The three-act libretto for Eine Nacht in Venedig was written by F. Zell (Camillo Walzel) and Richard Genée, adapted from Château Trompette by Eugène Cormon and Michel Carré. Zell worked primarily on the dialogue and the action while Genée concerned himself with the song-texts. . . . When preparing for a Berlin revival in 1923 the author Ernst Marischka and composer Erich Korngold made a series of revisions to both music and dialogue in an attempt to simplify some of the problems inherent in the original work. They re-ordered Strauss's original, made cuts and re-orchestrated the music in part. They also added a couple of numbers for the part of the Duke (sung by the immortal Richard Tauber) by taking music from Strauss's Simplicius and adapting one of Annina's songs. It is this 1923 version by which the operetta has become best known and that is used as the basis of this recording. In Korngold's version the baritone rôle of Pappacoda is given to a tenor. Here the part of Caramello is undertaken by a baritone, thereby necessitating the transposition of his part. There are other small changes too numerous to detail here.”

<tr>
<td><strong>COMMENTS</strong></td>
<td></td>
</tr>
<tr>
<td>General comment: Use of abbreviations has been considerably reduced, e.g., page and pages in 500, September in 518.</td>
<td></td>
</tr>
<tr>
<td>040</td>
<td>In order to identify records created following RDA, a new code for use in 040 $e has been defined for RDA as the source of the description convention. Value “i” in Leader/18 (Descriptive cataloging form) indicates that ISBD punctuation is in the record at subfield boundaries.</td>
</tr>
<tr>
<td>100 and 7XX</td>
<td>RDA provides a list of relationship designators in Appendix I for relationships between a resource and persons, corporate bodies, etc., that is much more comprehensive than the designations of functions available in AACR2. These designators could be used in lieu of MARC relator codes.</td>
</tr>
<tr>
<td>240</td>
<td>RDA allows adding elements like Other distinguishing characteristics of the expression (Korngold and Marischka), Content type (Performed music) and Date of expression (1954) to make the authorized access point representing the expression unique. However, RDA prescribes no specific order for the added elements. In this exercise, I followed the order that made the most sense.</td>
</tr>
<tr>
<td>245</td>
<td>The GMD is no longer used, being replaced with Content type, Medium type and Carrier type in fields 336, 337 and 338.</td>
</tr>
<tr>
<td></td>
<td>Statements of responsibility taken in accompanying material are not enclosed in brackets since accompanying material is considered as part of the resource in a comprehensive description.</td>
</tr>
<tr>
<td></td>
<td>RDA contains no instruction to transcribe only statements that are formally presented, i.e. not embedded in text, hence the last statement of responsibility taken from the text of the program notes.</td>
</tr>
<tr>
<td>260</td>
<td>When the date of publication is not identified in the resource, a date or approximate date of publication must be supplied. The phrase “[date of publication not identified]” is recorded when the resource doesn’t bear a date of publication and when a probable date cannot be supplied. The copyright date is required if neither a date of publication nor a date of distribution can be identified. The phonogram symbol (or the word phonogram if the symbol cannot be reproduced) is used instead of the letter p.</td>
</tr>
<tr>
<td>300</td>
<td>Playing speed is indicated for CDs, even if it is standard for that format. Encoding format (CD audio) is a new element which makes the Compact disc note unnecessary. This element could be omitted if a term in common usage conveying the same information such as compact disc was used to give the extent.</td>
</tr>
<tr>
<td></td>
<td>Dimensions are given in centimetres unless the agency exercises the option to use another system of measurement.</td>
</tr>
<tr>
<td>336, 337 and 338</td>
<td>Content type (336), Media type (337) and Carrier type (338) replace the GMD. One can record as many terms as are applicable to the resource being described or record only the terms that apply to the predominant part of the resource or to its most substantial parts. In this exercise, only the terms applying to the predominant part of the resource have been included.</td>
</tr>
<tr>
<td>5XX</td>
<td>Order of notes is governed by ISBD, which prescribes a slightly different order than AACR2.</td>
</tr>
<tr>
<td>500</td>
<td>Note on title even if the title is taken from the label; it might be omitted, though, “if the resource bears only a single title and the title appears on the resource itself” (2.20.2.3).</td>
</tr>
<tr>
<td>518</td>
<td>Place of capture and Date of capture have been established as two different sub-elements for which specific subfields have been defined. The prescribed format for Date of capture is year, month, day.</td>
</tr>
</tbody>
</table>
RDA provides a list of relationship designators in Appendix J for relationships between works, expressions, manifestations and items. Using $i in fields X00, X10, X11 and X30 is one way that could be used in MARC 21 to encode these designators.
